## NOTICES

### PRIVATE MEMBERS' MOTIONS

1. *Mr Jackson*—Resolution—That in the opinion of this House, recognizing municipalities have vital concerns with the movement of dangerous goods within their boundaries and that Ontario is the only province or territory in Canada that has not taken steps to control the movement of dangerous goods within municipalities the Ministry of Transportation and Communications, in consultation with the Ministry of the Environment, with the technical and public input from affected municipalities, enact specific legislation to control the types of hazardous goods and routes within municipal boundaries.
  
  2. *Mr Cousens*—Resolution—That in the opinion of this House, considering:
    - the dramatic increase in the number of terminal diseases such as Acquired Immune Deficiency Syndrome (AIDS), Cancer and related illnesses,
    - the present government is committed to an increased emphasis on community-based care versus institutionalized care for our frail and elderly population,
    - the costs per day per patient in an institutional chronic/acute care setting greatly exceeds the costs per day of home-based community care,
    - that approximately 95% of all palliative care is administered in hospitals,
    - only 40 of our 220 hospitals currently offer some form of palliative care,

the Government of Ontario, in particular, the Ministry of Health and the Ministry of Community and Social Services, should develop a comprehensive community-based system of palliative care services that would provide for:

    1. responsible and effective use of government resources,
    2. a wider range of services that allows for choice on the part of the terminally-ill and his/her family,
    3. a system that is accessible to all regions of our province.

## PRIVATE MEMBERS' BUSINESS TO BE DEBATED

*(Precedence in accordance with the Order of the House passed on Thursday, February 12, 1987, and pursuant to Standing Order 71 (d).)*

### Ballot Item No. 1

*Mr Cousens*—Resolution—That in the opinion of this House, considering:

- the dramatic increase in the number of terminal diseases such as Acquired Immune Deficiency Syndrome (AIDS), Cancer and related illnesses,
- the present government is committed to an increased emphasis on community-based care versus institutionalized care for our frail and elderly population,
- the costs per day per patient in an institutional chronic/acute care setting greatly exceeds the costs per day of home-based community care,
- that approximately 95% of all palliative care is administered in hospitals,
- only 40 of our 220 hospitals currently offer some form of palliative care,

the Government of Ontario, in particular, the Ministry of Health and the Ministry of Community and Social Services, should develop a comprehensive community-based system of palliative care services that would provide for:

1. responsible and effective use of government resources,
2. a wider range of services that allows for choice on the part of the terminally-ill and his/her family,
3. a system that is accessible to all regions of our province.

*To be debated on Thursday, April 30, 1987.*

### Ballot Item No. 3

*Mr Jackson*—Resolution—That in the opinion of this House, recognizing municipalities have vital concerns with the movement of dangerous goods within their boundaries and that Ontario is the only province or territory in Canada that has not taken steps to control the movement of dangerous goods within municipalities the Ministry of Transportation and Communications, in consultation with the Ministry of the Environment, with the technical and public input from affected municipalities, enact specific legislation to control the types of hazardous goods and routes within municipal boundaries. *To be debated on Thursday, May 7, 1987.*

## NOTICES

### PRIVATE MEMBERS' MOTIONS

1. *Mr Jackson*—Resolution—That in the opinion of this House, recognizing municipalities have vital concerns with the movement of dangerous goods within their boundaries and that Ontario is the only province or territory in Canada that has not taken steps to control the movement of dangerous goods within municipalities the Ministry of Transportation and Communications, in consultation with the Ministry of the Environment, with the technical and public input from affected municipalities, enact specific legislation to control the types of hazardous goods and routes within municipal boundaries.
  
2. *Mr Cousens*—Resolution—That in the opinion of this House, considering:
  - the dramatic increase in the number of terminal diseases such as Acquired Immune Deficiency Syndrome (AIDS), Cancer and related illnesses,
  - the present government is committed to an increased emphasis on community-based care versus institutionalized care for our frail and elderly population,
  - the costs per day per patient in an institutional chronic/acute care setting greatly exceeds the costs per day of home-based community care,
  - that approximately 95% of all palliative care is administered in hospitals,
  - only 40 of our 220 hospitals currently offer some form of palliative care,

the Government of Ontario, in particular, the Ministry of Health and the Ministry of Community and Social Services, should develop a comprehensive community-based system of palliative care services that would provide for:

  1. responsible and effective use of government resources,
  2. a wider range of services that allows for choice on the part of the terminally-ill and his/her family,
  3. a system that is accessible to all regions of our province.
  
3. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail businesses in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986.

## PRIVATE MEMBERS' BUSINESS TO BE DEBATED

*(Precedence in accordance with the Order of the House passed on Thursday, February 12, 1987, and pursuant to Standing Order 71 (d).)*

### Ballot Item No. 1

*Mr Cousens*—Resolution—That in the opinion of this House, considering:

- the dramatic increase in the number of terminal diseases such as Acquired Immune Deficiency Syndrome (AIDS), Cancer and related illnesses,
- the present government is committed to an increased emphasis on community-based care versus institutionalized care for our frail and elderly population,
- the costs per day per patient in an institutional chronic/acute care setting greatly exceeds the costs per day of home-based community care,
- that approximately 95% of all palliative care is administered in hospitals,
- only 40 of our 220 hospitals currently offer some form of palliative care,

the Government of Ontario, in particular, the Ministry of Health and the Ministry of Community and Social Services, should develop a comprehensive community-based system of palliative care services that would provide for:

1. responsible and effective use of government resources,
2. a wider range of services that allows for choice on the part of the terminally-ill and his/her family,
3. a system that is accessible to all regions of our province.

*To be debated today.*

## PRIVATE MEMBERS' MOTIONS

1. *Mr Jackson*—Resolution—That in the opinion of this House, recognizing municipalities have vital concerns with the movement of dangerous goods within their boundaries and that Ontario is the only province or territory in Canada that has not taken steps to control the movement of dangerous goods within municipalities the Ministry of Transportation and Communications, in consultation with the Ministry of the Environment, with the technical and public input from affected municipalities, enact specific legislation to control the types of hazardous goods and routes within municipal boundaries.
2. *Debated Thursday, April 30, 1987.*
3. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail businesses in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986.

## QUESTIONS

*(Questions are to appear on the day after they are tabled and on every subsequent day in the week they are tabled and then subsequently only on each Monday until an Answer (other than an Interim Answer) is tabled. A question tabled on a Thursday will appear on each day of the following week.)*

### NOTE:

## NOTICES

### GOVERNMENT MOTIONS

1. *Mr Nixon*—Resolution—That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of Supply for the period commencing June 1, 1987 and ending June 30, 1987, such payments to be charged to the proper appropriation following the voting of Supply.
2. *Debated May 4, 1987.*
3. *Debated May 4, 1987.*

### PRIVATE MEMBERS' MOTIONS

1. *Mr Jackson*—Resolution—That in the opinion of this House, recognizing municipalities have vital concerns with the movement of dangerous goods within their boundaries and that Ontario is the only province or territory in Canada that has not taken steps to control the movement of dangerous goods within municipalities the Ministry of Transportation and Communications, in consultation with the Ministry of the Environment, with the technical and public input from affected municipalities, enact specific legislation to control the types of hazardous goods and routes within municipal boundaries.
3. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail businesses in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986.
4. *Mr Gordon*—Resolution—That in the opinion of this House, recognizing:
  - That Northerners must contend with a higher cost of living because of the sparse population, long distances between cities, and a harsh climate,
  - That operating a car is a practical necessity in the North,
  - That the North is being economically discriminated against when gasoline prices are allowed to be 16 cents per gallon higher in Northern Ontario than in the South,
  - That Northerners pay \$71 million more every year for gasoline because of these higher prices,

- That higher gasoline prices serve as a deterrent to northern economic development,
- That high gasoline prices deter potential vacationers,
- That higher gasoline prices are socially regressive given that incomes in the North are lower than those in the South,
- That a cut in the price of gasoline would put money back into the pockets of ordinary Northerners, workers, pensioners, and those on fixed incomes who can better spend this money on the necessities of life,
- That higher gasoline prices cost Northerners money and jobs.

Therefore the Government of Ontario is called upon to act immediately to fulfil its promise of two years ago to equalize gasoline prices between Northern and Southern Ontario and put into practice the principle established in the Throne Speech that the best solutions are home-grown solutions.

## NOTICES

### GOVERNMENT MOTIONS

1. *Mr Nixon*—Resolution—That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of Supply for the period commencing June 1, 1987 and ending June 30, 1987, such payments to be charged to the proper appropriation following the voting of Supply.

---

### PRIVATE MEMBERS' MOTIONS

1. *Mr Jackson*—Resolution—That in the opinion of this House, recognizing municipalities have vital concerns with the movement of dangerous goods within their boundaries and that Ontario is the only province or territory in Canada that has not taken steps to control the movement of dangerous goods within municipalities the Ministry of Transportation and Communications, in consultation with the Ministry of the Environment, with the technical and public input from affected municipalities, enact specific legislation to control the types of hazardous goods and routes within municipal boundaries.
3. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail businesses in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986.
4. *Mr Gordon*—Resolution—That in the opinion of this House, recognizing:
  - That Northerners must contend with a higher cost of living because of the sparse population, long distances between cities, and a harsh climate,
  - That operating a car is a practical necessity in the North,
  - That the North is being economically discriminated against when gasoline prices are allowed to be 16 cents per gallon higher in Northern Ontario than in the South,
  - That Northerners pay \$71 million more every year for gasoline because of these higher prices,
  - That higher gasoline prices serve as a deterrent to northern economic development,
  - That high gasoline prices deter potential vacationers,

- That higher gasoline prices are socially regressive given that incomes in the North are lower than those in the South,
- That a cut in the price of gasoline would put money back into the pockets of ordinary Northerners, workers, pensioners, and those on fixed incomes who can better spend this money on the necessities of life,
- That higher gasoline prices cost Northerners money and jobs.

Therefore the Government of Ontario is called upon to act immediately to fulfil its promise of two years ago to equalize gasoline prices between Northern and Southern Ontario and put into practice the principle established in the Throne Speech that the best solutions are home-grown solutions.

5. *Mr Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by; (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called “Federated State of Northern Cyprus”; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.

## NOTICES

### GOVERNMENT MOTION

1. *Mr Nixon*—Resolution—That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of Supply for the period commencing June 1, 1987 and ending June 30, 1987, such payments to be charged to the proper appropriation following the voting of Supply.

### PRIVATE MEMBERS' MOTIONS

1. *Mr Jackson*—Resolution—That in the opinion of this House, recognizing municipalities have vital concerns with the movement of dangerous goods within their boundaries and that Ontario is the only province or territory in Canada that has not taken steps to control the movement of dangerous goods within municipalities the Ministry of Transportation and Communications, in consultation with the Ministry of the Environment, with the technical and public input from affected municipalities, enact specific legislation to control the types of hazardous goods and routes within municipal boundaries.
3. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail businesses in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986.
4. *Mr Gordon*—Resolution—That in the opinion of this House, recognizing:
  - That Northerners must contend with a higher cost of living because of the sparse population, long distances between cities, and a harsh climate,
  - That operating a car is a practical necessity in the North,
  - That the North is being economically discriminated against when gasoline prices are allowed to be 16 cents per gallon higher in Northern Ontario than in the South,
  - That Northerners pay \$71 million more every year for gasoline because of these higher prices,
  - That higher gasoline prices serve as a deterrent to northern economic development,
  - That high gasoline prices deter potential vacationers,

- That higher gasoline prices are socially regressive given that incomes in the North are lower than those in the South,
- That a cut in the price of gasoline would put money back into the pockets of ordinary Northerners, workers, pensioners, and those on fixed incomes who can better spend this money on the necessities of life,
- That higher gasoline prices cost Northerners money and jobs.

Therefore the Government of Ontario is called upon to act immediately to fulfil its promise of two years ago to equalize gasoline prices between Northern and Southern Ontario and put into practice the principle established in the Throne Speech that the best solutions are home-grown solutions.

5. *Mr Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by; (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called “Federated State of Northern Cyprus”; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.

### PRIVATE MEMBERS' MOTIONS

1. *Debated May 7, 1987.*
3. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail businesses in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986.
4. *Mr Gordon*—Resolution—That in the opinion of this House, recognizing:
  - That Northerners must contend with a higher cost of living because of the sparse population, long distances between cities, and a harsh climate,
  - That operating a car is a practical necessity in the North,
  - That the North is being economically discriminated against when gasoline prices are allowed to be 16 cents per gallon higher in Northern Ontario than in the South,
  - That Northerners pay \$71 million more every year for gasoline because of these higher prices,
  - That higher gasoline prices serve as a deterrent to northern economic development,
  - That high gasoline prices deter potential vacationers,
  - That higher gasoline prices are socially regressive given that incomes in the North are lower than those in the South,
  - That a cut in the price of gasoline would put money back into the pockets of ordinary Northerners, workers, pensioners, and those on fixed incomes who can better spend this money on the necessities of life,

— That higher gasoline prices cost Northerners money and jobs.

Therefore the Government of Ontario is called upon to act immediately to fulfil its promise of two years ago to equalize gasoline prices between Northern and Southern Ontario and put into practice the principle established in the Throne Speech that the best solutions are home-grown solutions.

5. *Mr Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by; (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called “Federated State of Northern Cyprus”; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
  6. *Mr Wildman*—Resolution—That in the opinion of this House the Canada Post Corporation’s plans to close, amalgamate or franchise many rural post offices and to eliminate or tender rural route services in order to reduce its operating deficit, would reduce essential mail services from many rural Ontario communities causing severe hardship and inconvenience to rural Ontarians, particularly the elderly and disabled; and the provincial government should urge the Government of Canada to halt immediately these plans to cut service and to maintain and improve rural postal services across Ontario.

## PRIVATE MEMBERS' BUSINESS TO BE DEBATED

*(Precedence in accordance with the Order of the House passed on Thursday, February 12, 1987, and pursuant to Standing Order 71 (d).)*

Ballot Item Nos. 2 and 3. *Debated May 7, 1987.*

Ballot Item No. 4

*Second Reading* Bill 10, An Act to amend the Landlord and Tenant Act. *Mr Reville. To be debated on Thursday, May 14, 1987.*

Ballot Item No. 7

*Mr Gordon*—Resolution—That in the opinion of this House, recognizing:

- That Northerners must contend with a higher cost of living because of the sparse population, long distances between cities, and a harsh climate,
- That operating a car is a practical necessity in the North,
- That the North is being economically discriminated against when gasoline prices are allowed to be 16 cents per gallon higher in Northern Ontario than in the South,
- That Northerners pay \$71 million more every year for gasoline because of these higher prices,
- That higher gasoline prices serve as a deterrent to northern economic development,
- That high gasoline prices deter potential vacationers,
- That higher gasoline prices are socially regressive given that incomes in the North are lower than those in the South,
- That a cut in the price of gasoline would put money back into the pockets of ordinary Northerners, workers, pensioners, and those on fixed incomes who can better spend this money on the necessities of life,
- That higher gasoline prices cost Northerners money and jobs.

Therefore the Government of Ontario is called upon to act immediately to fulfil its promise of two years ago to equalize gasoline prices between Northern and Southern Ontario and put into practice the principle established in the Throne Speech that the best solutions are home-grown solutions.

*To be debated on Thursday, May 21, 1987.*

## NOTICES

### GOVERNMENT MOTION

1. *Mr Nixon*—Resolution—That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of Supply for the period commencing June 1, 1987 and ending June 30, 1987, such payments to be charged to the proper appropriation following the voting of Supply.
- 

### PRIVATE MEMBERS' MOTIONS

3. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail businesses in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986.
4. *Mr Gordon*—Resolution—That in the opinion of this House, recognizing:
  - That Northerners must contend with a higher cost of living because of the sparse population, long distances between cities, and a harsh climate,
  - That operating a car is a practical necessity in the North,
  - That the North is being economically discriminated against when gasoline prices are allowed to be 16 cents per gallon higher in Northern Ontario than in the South,
  - That Northerners pay \$71 million more every year for gasoline because of these higher prices,
  - That higher gasoline prices serve as a deterrent to northern economic development,
  - That high gasoline prices deter potential vacationers,
  - That higher gasoline prices are socially regressive given that incomes in the North are lower than those in the South,
  - That a cut in the price of gasoline would put money back into the pockets of ordinary Northerners, workers, pensioners, and those on fixed incomes who can better spend this money on the necessities of life,
  - That higher gasoline prices cost Northerners money and jobs.

Therefore the Government of Ontario is called upon to act immediately to fulfil its promise of two years ago to equalize gasoline prices between Northern and Southern Ontario and put into practice the principle established in the Throne Speech that the best solutions are home-grown solutions.

5. *Mr Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by; (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called “Federated State of Northern Cyprus”; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
  6. *Mr Wildman*—Resolution—That in the opinion of this House the Canada Post Corporation’s plans to close, amalgamate or franchise many rural post offices and to eliminate or tender rural route services in order to reduce its operating deficit, would reduce essential mail services from many rural Ontario communities causing severe hardship and inconvenience to rural Ontarians, particularly the elderly and disabled; and the provincial government should urge the Government of Canada to halt immediately these plans to cut service and to maintain and improve rural postal services across Ontario.
  7. *Mr Dean*—Resolution—That in the opinion of this House, recognizing that many regions of this Province, particularly Northern and Eastern Ontario are discriminated against with regard to gasoline prices, this House recommends that the Treasurer of Ontario, in his budget, bring about changes to the methods of calculating and applying the gasoline tax so that the price for gasoline may be equalized throughout the Province.

### Ballot Item No. 7

*Mr Gordon*—Resolution—That in the opinion of this House, recognizing:

- That Northerners must contend with a higher cost of living because of the sparse population, long distances between cities, and a harsh climate,
- That operating a car is a practical necessity in the North,
- That the North is being economically discriminated against when gasoline prices are allowed to be 16 cents per gallon higher in Northern Ontario than in the South,

## NOTICES

### GOVERNMENT MOTION

1. *Mr Nixon*—Resolution—That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of Supply for the period commencing June 1, 1987 and ending June 30, 1987, such payments to be charged to the proper appropriation following the voting of Supply.

---

### PRIVATE MEMBERS' MOTIONS

3. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail businesses in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986.
4. *Mr Gordon*—Resolution—That in the opinion of this House, recognizing:
  - That Northerners must contend with a higher cost of living because of the sparse population, long distances between cities, and a harsh climate,
  - That operating a car is a practical necessity in the North,
  - That the North is being economically discriminated against when gasoline prices are allowed to be 16 cents per gallon higher in Northern Ontario than in the South,
  - That Northerners pay \$71 million more every year for gasoline because of these higher prices,
  - That higher gasoline prices serve as a deterrent to northern economic development,
  - That high gasoline prices deter potential vacationers,
  - That higher gasoline prices are socially regressive given that incomes in the North are lower than those in the South,
  - That a cut in the price of gasoline would put money back into the pockets of ordinary Northerners, workers, pensioners, and those on fixed incomes who can better spend this money on the necessities of life,
  - That higher gasoline prices cost Northerners money and jobs.

Therefore the Government of Ontario is called upon to act immediately to fulfil its promise of two years ago to equalize gasoline prices between Northern and Southern Ontario and put into practice the principle established in the Throne Speech that the best solutions are home-grown solutions.

5. *Mr Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by; (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called “Federated State of Northern Cyprus”; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
  6. *Mr Wildman*—Resolution—That in the opinion of this House the Canada Post Corporation's plans to close, amalgamate or franchise many rural post offices and to eliminate or tender rural route services in order to reduce its operating deficit, would reduce essential mail services from many rural Ontario communities causing severe hardship and inconvenience to rural Ontarians, particularly the elderly and disabled; and the provincial government should urge the Government of Canada to halt immediately these plans to cut service and to maintain and improve rural postal services across Ontario.
  7. *Mr Dean*—Resolution—That in the opinion of this House, recognizing that many regions of this Province, particularly Northern and Eastern Ontario are discriminated against with regard to gasoline prices, this House recommends that the Treasurer of Ontario, in his budget, bring about changes to the methods of calculating and applying the gasoline tax so that the price for gasoline may be equalized throughout the Province.
  8. *Mr Harris*—Resolution—That in the opinion of this House, recognizing the historic agreement in principle reached at Meech Lake with respect to Canada's Constitution and recognizing that the details of the agreement have not yet been determined or finalized, the Government of Ontario should not ratify the agreement until such time as a Committee of this House conducts open, public hearings on this important issue and its impact on transfer payments, immigration programs, and the change in federal/provincial relations.

## NOTICES

### GOVERNMENT MOTION

1. *Mr Nixon*—Resolution—That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of Supply for the period commencing June 1, 1987 and ending June 30, 1987, such payments to be charged to the proper appropriation following the voting of Supply.

---

### PRIVATE MEMBERS' MOTIONS

3. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail businesses in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986.
4. *Mr Gordon*—Resolution—That in the opinion of this House, recognizing:
  - That Northerners must contend with a higher cost of living because of the sparse population, long distances between cities, and a harsh climate,
  - That operating a car is a practical necessity in the North,
  - That the North is being economically discriminated against when gasoline prices are allowed to be 16 cents per gallon higher in Northern Ontario than in the South,
  - That Northerners pay \$71 million more every year for gasoline because of these higher prices,
  - That higher gasoline prices serve as a deterrent to northern economic development,
  - That high gasoline prices deter potential vacationers,
  - That higher gasoline prices are socially regressive given that incomes in the North are lower than those in the South,
  - That a cut in the price of gasoline would put money back into the pockets of ordinary Northerners, workers, pensioners, and those on fixed incomes who can better spend this money on the necessities of life,
  - That higher gasoline prices cost Northerners money and jobs.

Therefore the Government of Ontario is called upon to act immediately to fulfil its promise of two years ago to equalize gasoline prices between Northern and Southern Ontario and put into practice the principle established in the Throne Speech that the best solutions are home-grown solutions.

5. *Mr Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by; (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called “Federated State of Northern Cyprus”; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
6. *Mr Wildman*—Resolution—That in the opinion of this House the Canada Post Corporation’s plans to close, amalgamate or franchise many rural post offices and to eliminate or tender rural route services in order to reduce its operating deficit, would reduce essential mail services from many rural Ontario communities causing severe hardship and inconvenience to rural Ontarians, particularly the elderly and disabled; and the provincial government should urge the Government of Canada to halt immediately these plans to cut service and to maintain and improve rural postal services across Ontario.
7. *Mr Dean*—Resolution—That in the opinion of this House, recognizing that many regions of this Province, particularly Northern and Eastern Ontario are discriminated against with regard to gasoline prices, this House recommends that the Treasurer of Ontario, in his budget, bring about changes to the methods of calculating and applying the gasoline tax so that the price for gasoline may be equalized throughout the Province.
8. *Mr Harris*—Resolution—That in the opinion of this House, recognizing the historic agreement in principle reached at Meech Lake with respect to Canada’s Constitution and recognizing that the details of the agreement have not yet been determined or finalized, the Government of Ontario should not ratify the agreement until such time as a Committee of this House conducts open, public hearings on this important issue and its impact on transfer payments, immigration programs, and the change in federal/provincial relations.

9. *Mr McCaffrey*—Resolution—That this House supports the federal government's initiatives to negotiate a bilateral trading arrangement with the United States, as part of the government's multilateral trade policy, while protecting our political sovereignty, social programs, agricultural marketing systems, the auto industry, and our unique cultural identity; And further that this House believes that the provincial government must take a more active role in the development of Canada's trade strategy and the trade negotiations including clearly putting forward Ontario's position with respect to this issue of importance to all Canadians.

### PRIVATE MEMBERS' MOTIONS

3. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail businesses in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986.
4. *Mr Gordon*—Resolution—That in the opinion of this House, recognizing:
  - That Northerners must contend with a higher cost of living because of the sparse population, long distances between cities, and a harsh climate,
  - That operating a car is a practical necessity in the North,
  - That the North is being economically discriminated against when gasoline prices are allowed to be 16 cents per gallon higher in Northern Ontario than in the South,
  - That Northerners pay \$71 million more every year for gasoline because of these higher prices,
  - That higher gasoline prices serve as a deterrent to northern economic development,
  - That high gasoline prices deter potential vacationers,

- That higher gasoline prices are socially regressive given that incomes in the North are lower than those in the South,
- That a cut in the price of gasoline would put money back into the pockets of ordinary Northerners, workers, pensioners, and those on fixed incomes who can better spend this money on the necessities of life,
- That higher gasoline prices cost Northerners money and jobs.

Therefore the Government of Ontario is called upon to act immediately to fulfil its promise of two years ago to equalize gasoline prices between Northern and Southern Ontario and put into practice the principle established in the Throne Speech that the best solutions are home-grown solutions.

5. *Mr Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by; (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
6. *Mr Wildman*—Resolution—That in the opinion of this House the Canada Post Corporation's plans to close, amalgamate or franchise many rural post offices and to eliminate or tender rural route services in order to reduce its operating deficit, would reduce essential mail services from many rural Ontario communities causing severe hardship and inconvenience to rural Ontarians, particularly the elderly and disabled; and the provincial government should urge the Government of Canada to halt immediately these plans to cut service and to maintain and improve rural postal services across Ontario.
7. *Debated May 14, 1987.*
8. *Mr Harris*—Resolution—That in the opinion of this House, recognizing the historic agreement in principle reached at Meech Lake with respect to Canada's Constitution and recognizing that the details of the agreement have not yet been determined or finalized, the Government of Ontario should not ratify the agreement until such time as a Committee of this House conducts open, public hearings on this important issue and its impact on transfer pay-

ments, immigration programs, and the change in federal/provincial relations.

9. *Mr McCaffrey*—Resolution—That this House supports the federal government's initiatives to negotiate a bilateral trading arrangement with the United States, as part of the government's multilateral trade policy, while protecting our political sovereignty, social programs, agricultural marketing systems, the auto industry, and our unique cultural identity; And further that this House believes that the provincial government must take a more active role in the development of Canada's trade strategy and the trade negotiations including clearly putting forward Ontario's position with respect to this issue of importance to all Canadians.
  
10. *Mr Sheppard*—Resolution—That, in the opinion of this House, recognizing that the maintenance and construction of a good road system is vital to the local, regional and provincial economy and recognizing the increasing gap between road subsidy and the expenditures required to maintain the existing level of service for roads, the Government of Ontario should increase the municipal subsidies available to municipalities for road purposes.
  
11. *Mr Gordon*—Resolution—That, in the opinion of this House recognizing:
  - That Ontario Hydro, as a crown corporation is to be used as a public policy tool in the service of the economic development of Ontario,
  
  - That Northern Ontario has not enjoyed the economic boom currently being experienced in Southern Ontario, and has developed fundamental economic structural problems that must be addressed with imaginative and resourceful policy making,
  
  - That longer winters in Northern Ontario mean that Northerners must consume more electricity and this, in turn, contributes substantially to the higher costs of living and doing business in Northern Ontario,
  
  - That the Rosehart Report on Resource Dependent Communities in Northern Ontario identified higher energy costs resulting from harsher weather conditions as one of the key factors in the higher cost of doing business in the North,
  
  - That the challenge of economic renewal in the North must be addressed on all fronts because of its far-reaching social and economic benefits,
  
  - That lower hydro rates will help established Northern resource industries to compete on a world wide basis,
  
  - That lowering hydro rates in Northern Ontario will stimulate the development of new industry and jobs for Northerners,
  
  - That lowering hydro rates will return money to the pockets of ordinary Northerners who pay more for energy,

Therefore we call on the Government of Ontario to develop a policy that uses Ontario Hydro as an instrument for the economic and social transformation of Northern Ontario through the lowering of Hydro rates in Northern Ontario, thereby ameliorating the high costs of living and conducting business in the North.

## PRIVATE MEMBERS' BUSINESS TO BE DEBATED

*(Precedence in accordance with the Order of the House passed on Thursday, February 12, 1987, and pursuant to Standing Order 71 (d).)*

Ballot Item Nos. 4 and 5. *Debated May 14, 1987.*

Ballot Item No. 6

*Mr Gordon*—Resolution—That, in the opinion of this House recognizing:

- That Ontario Hydro, as a crown corporation is to be used as a public policy tool in the service of the economic development of Ontario,
- That Northern Ontario has not enjoyed the economic boom currently being experienced in Southern Ontario, and has developed fundamental economic structural problems that must be addressed with imaginative and resourceful policy making,
- That longer winters in Northern Ontario mean that Northerners must consume more electricity and this, in turn, contributes substantially to the higher costs of living and doing business in Northern Ontario,
- That the Rosehart Report on Resource Dependent Communities in Northern Ontario identified higher energy costs resulting from harsher weather conditions as one of the key factors in the higher cost of doing business in the North,
- That the challenge of economic renewal in the North must be addressed on all fronts because of its far-reaching social and economic benefits,
- That lower hydro rates will help established Northern resource industries to compete on a world wide basis,
- That lowering hydro rates in Northern Ontario will stimulate the development of new industry and jobs for Northerners,
- That lowering hydro rates will return money to the pockets of ordinary Northerners who pay more for energy,

Therefore we call on the Government of Ontario to develop a policy that uses Ontario Hydro as an instrument for the economic and social transformation of Northern Ontario through the lowering of Hydro rates in Northern Ontario, thereby ameliorating the high costs of living and conducting business in the North.

*To be debated on Thursday, May 21, 1987.*

Ballot Item No. 7

*Mr Harris*—Resolution—That in the opinion of this House, recognizing the historic agreement in principle reached at Meech Lake with respect to Canada's

Constitution and recognizing that the details of the agreement have not yet been determined or finalized, the Government of Ontario should not ratify the agreement until such time as a Committee of this House conducts open, public hearings on this important issue and its impact on transfer payments, immigration programs, and the change in federal/provincial relations. *To be debated on Thursday, May 21, 1987.*

#### Ballot Item No. 8

*Mr McCaffrey*—Resolution—That this House supports the federal government's initiatives to negotiate a bilateral trading arrangement with the United States, as part of the government's multilateral trade policy, while protecting our political sovereignty, social programs, agricultural marketing systems, the auto industry, and our unique cultural identity; And further that this House believes that the provincial government must take a more active role in the development of Canada's trade strategy and the trade negotiations including clearly putting forward Ontario's position with respect to this issue of importance to all Canadians. *To be debated on Thursday, May 28, 1987.*

#### Ballot Item No. 9

*Second Reading* Bill 41, An Act to encourage the Rehabilitation of Water Delivery Systems in Ontario. *Mrs Marland. To be debated on Thursday, May 28, 1987.*

#### Ballot Item No. 10

*Mr Sheppard*—Resolution—That, in the opinion of this House, recognizing that the maintenance and construction of a good road system is vital to the local, regional and provincial economy and recognizing the increasing gap between road subsidy and the expenditures required to maintain the existing level of service for roads, the Government of Ontario should increase the municipal subsidies available to municipalities for road purposes. *To be debated on Thursday, June 4, 1987.*

### PRIVATE MEMBERS' MOTIONS

3. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail businesses in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986.
4. *Mr Gordon*—Resolution—That in the opinion of this House, recognizing:
  - That Northerners must contend with a higher cost of living because of the sparse population, long distances between cities, and a harsh climate,
  - That operating a car is a practical necessity in the North,

- That the North is being economically discriminated against when gasoline prices are allowed to be 16 cents per gallon higher in Northern Ontario than in the South,
- That Northerners pay \$71 million more every year for gasoline because of these higher prices,
- That higher gasoline prices serve as a deterrent to northern economic development,
- That high gasoline prices deter potential vacationers,
- That higher gasoline prices are socially regressive given that incomes in the North are lower than those in the South,
- That a cut in the price of gasoline would put money back into the pockets of ordinary Northerners, workers, pensioners, and those on fixed incomes who can better spend this money on the necessities of life,
- That higher gasoline prices cost Northerners money and jobs.

Therefore the Government of Ontario is called upon to act immediately to fulfil its promise of two years ago to equalize gasoline prices between Northern and Southern Ontario and put into practice the principle established in the Throne Speech that the best solutions are home-grown solutions.

5. *Mr Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by; (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called “Federated State of Northern Cyprus”; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
6. *Mr Wildman*—Resolution—That in the opinion of this House the Canada Post Corporation’s plans to close, amalgamate or franchise many rural post offices and to eliminate or tender rural route services in order to reduce its operating deficit, would reduce essential mail services from many rural Ontario communities causing severe hardship and inconvenience to rural Ontarians, particularly the elderly and disabled; and the provincial govern-

ment should urge the Government of Canada to halt immediately these plans to cut service and to maintain and improve rural postal services across Ontario.

8. *Mr Harris*—Resolution—That in the opinion of this House, recognizing the historic agreement in principle reached at Meech Lake with respect to Canada's Constitution and recognizing that the details of the agreement have not yet been determined or finalized, the Government of Ontario should not ratify the agreement until such time as a Committee of this House conducts open, public hearings on this important issue and its impact on transfer payments, immigration programs, and the change in federal/provincial relations.
9. *Mr McCaffrey*—Resolution—That this House supports the federal government's initiatives to negotiate a bilateral trading arrangement with the United States, as part of the government's multilateral trade policy, while protecting our political sovereignty, social programs, agricultural marketing systems, the auto industry, and our unique cultural identity; And further that this House believes that the provincial government must take a more active role in the development of Canada's trade strategy and the trade negotiations including clearly putting forward Ontario's position with respect to this issue of importance to all Canadians.
10. *Mr Sheppard*—Resolution—That, in the opinion of this House, recognizing that the maintenance and construction of a good road system is vital to the local, regional and provincial economy and recognizing the increasing gap between road subsidy and the expenditures required to maintain the existing level of service for roads, the Government of Ontario should increase the municipal subsidies available to municipalities for road purposes.
11. *Mr Gordon*—Resolution—That, in the opinion of this House recognizing:
  - That Ontario Hydro, as a crown corporation is to be used as a public policy tool in the service of the economic development of Ontario,
  - That Northern Ontario has not enjoyed the economic boom currently being experienced in Southern Ontario, and has developed fundamental economic structural problems that must be addressed with imaginative and resourceful policy making,
  - That longer winters in Northern Ontario mean that Northerners must consume more electricity and this, in turn, contributes substantially to the higher costs of living and doing business in Northern Ontario,
  - That the Rosehart Report on Resource Dependent Communities in Northern Ontario identified higher energy costs resulting from harsher weather conditions as one of the key factors in the higher cost of doing business in the North,
  - That the challenge of economic renewal in the North must be addressed on all fronts because of its far-reaching social and economic benefits,

- That lower hydro rates will help established Northern resource industries to compete on a world wide basis,
- That lowering hydro rates in Northern Ontario will stimulate the development of new industry and jobs for Northerners,
- That lowering hydro rates will return money to the pockets of ordinary Northerners who pay more for energy,

Therefore we call on the Government of Ontario to develop a policy that uses Ontario Hydro as an instrument for the economic and social transformation of Northern Ontario through the lowering of Hydro rates in Northern Ontario, thereby ameliorating the high costs of living and conducting business in the North.

### PRIVATE MEMBERS' MOTIONS

3. *Ms Bryden—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail businesses in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986.*
4. *Mr Gordon—Resolution—That in the opinion of this House, recognizing:*
  - That Northerners must contend with a higher cost of living because of the sparse population, long distances between cities, and a harsh climate,
  - That operating a car is a practical necessity in the North,

- That the North is being economically discriminated against when gasoline prices are allowed to be 16 cents per gallon higher in Northern Ontario than in the South,
- That Northerners pay \$71 million more every year for gasoline because of these higher prices,
- That higher gasoline prices serve as a deterrent to northern economic development,
- That high gasoline prices deter potential vacationers,
- That higher gasoline prices are socially regressive given that incomes in the North are lower than those in the South,
- That a cut in the price of gasoline would put money back into the pockets of ordinary Northerners, workers, pensioners, and those on fixed incomes who can better spend this money on the necessities of life,
- That higher gasoline prices cost Northerners money and jobs.

Therefore the Government of Ontario is called upon to act immediately to fulfil its promise of two years ago to equalize gasoline prices between Northern and Southern Ontario and put into practice the principle established in the Throne Speech that the best solutions are home-grown solutions.

5. *Mr Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by; (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called “Federated State of Northern Cyprus”; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
6. *Mr Wildman*—Resolution—That in the opinion of this House the Canada Post Corporation’s plans to close, amalgamate or franchise many rural post offices and to eliminate or tender rural route services in order to reduce its operating deficit, would reduce essential mail services from many rural Ontario communities causing severe hardship and inconvenience to rural Ontarians, particularly the elderly and disabled; and the provincial govern-

ment should urge the Government of Canada to halt immediately these plans to cut service and to maintain and improve rural postal services across Ontario.

8. *Mr Harris*—Resolution—That in the opinion of this House, recognizing the historic agreement in principle reached at Meech Lake with respect to Canada's Constitution and recognizing that the details of the agreement have not yet been determined or finalized, the Government of Ontario should not ratify the agreement until such time as a Committee of this House conducts open, public hearings on this important issue and its impact on transfer payments, immigration programs, and the change in federal/provincial relations.
9. *Mr McCaffrey*—Resolution—That, in the opinion of this House, the federal government's initiatives to negotiate a bilateral trading arrangement with the United States should be supported, as part of the government's multilateral trade policy, while protecting our political sovereignty, social programs, agricultural marketing systems, the auto industry, and our unique cultural identity; And further that this House believes that the provincial government must take a more active role in the development of Canada's trade strategy and the trade negotiations including clearly putting forward Ontario's position with respect to this issue of importance to all Canadians.
10. *Mr Sheppard*—Resolution—That, in the opinion of this House, recognizing that the maintenance and construction of a good road system is vital to the local, regional and provincial economy and recognizing the increasing gap between road subsidy and the expenditures required to maintain the existing level of service for roads, the Government of Ontario should increase the municipal subsidies available to municipalities for road purposes.
11. *Mr Gordon*—Resolution—That, in the opinion of this House recognizing:
  - That Ontario Hydro, as a crown corporation is to be used as a public policy tool in the service of the economic development of Ontario,
  - That Northern Ontario has not enjoyed the economic boom currently being experienced in Southern Ontario, and has developed fundamental economic structural problems that must be addressed with imaginative and resourceful policy making,
  - That longer winters in Northern Ontario mean that Northerners must consume more electricity and this, in turn, contributes substantially to the higher costs of living and doing business in Northern Ontario,
  - That the Rosehart Report on Resource Dependent Communities in Northern Ontario identified higher energy costs resulting from harsher weather conditions as one of the key factors in the higher cost of doing business in the North,
  - That the challenge of economic renewal in the North must be addressed on all fronts because of its far-reaching social and economic benefits,

- That lower hydro rates will help established Northern resource industries to compete on a world wide basis,
- That lowering hydro rates in Northern Ontario will stimulate the development of new industry and jobs for Northerners,
- That lowering hydro rates will return money to the pockets of ordinary Northerners who pay more for energy,

Therefore we call on the Government of Ontario to develop a policy that uses Ontario Hydro as an instrument for the economic and social transformation of Northern Ontario through the lowering of Hydro rates in Northern Ontario, thereby ameliorating the high costs of living and conducting business in the North.

## PRIVATE MEMBERS' BUSINESS TO BE DEBATED

*(Precedence in accordance with the Order of the House passed on Thursday, February 12, 1987, and pursuant to Standing Order 71 (d).)*

### Ballot Item No. 6

*Mr Gordon*—Resolution—That, in the opinion of this House recognizing:

- That Ontario Hydro, as a crown corporation is to be used as a public policy tool in the service of the economic development of Ontario,
- That Northern Ontario has not enjoyed the economic boom currently being experienced in Southern Ontario, and has developed fundamental economic structural problems that must be addressed with imaginative and resourceful policy making,

## NOTICES

### GOVERNMENT MOTIONS

1. *Debated May 19 and 20, 1987.*
4. *Mr Nixon—Resolution—That the Provisional Standing Orders be extended to remain in effect until 12.00 midnight on Thursday, December 31, 1987.*
6. *Debated May 20 and 21, 1987.*
7. *Debated May 21, 1987.*
8. *Debated May 21, 1987.*
9. *Mr Peterson—Resolution—That this House agrees with the agreement in principle on the Constitution signed by the Prime Minister and the ten premiers at Meech Lake on April 30, 1987.*

---

### PRIVATE MEMBERS' MOTIONS

3. *Ms Bryden—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail businesses in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986.*
4. *Mr Gordon—Resolution—That in the opinion of this House, recognizing:*
  - That Northerners must contend with a higher cost of living because of the sparse population, long distances between cities, and a harsh climate,
  - That operating a car is a practical necessity in the North,
  - That the North is being economically discriminated against when gasoline prices are allowed to be 16 cents per gallon higher in Northern Ontario than in the South,
  - That Northerners pay \$71 million more every year for gasoline because of these higher prices,
  - That higher gasoline prices serve as a deterrent to northern economic development,
  - That high gasoline prices deter potential vacationers,

- That higher gasoline prices are socially regressive given that incomes in the North are lower than those in the South,
- That a cut in the price of gasoline would put money back into the pockets of ordinary Northerners, workers, pensioners, and those on fixed incomes who can better spend this money on the necessities of life,
- That higher gasoline prices cost Northerners money and jobs.

Therefore the Government of Ontario is called upon to act immediately to fulfil its promise of two years ago to equalize gasoline prices between Northern and Southern Ontario and put into practice the principle established in the Throne Speech that the best solutions are home-grown solutions.

5. *Mr Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by; (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called “Federated State of Northern Cyprus”; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
6. *Mr Wildman*—Resolution—That in the opinion of this House the Canada Post Corporation’s plans to close, amalgamate or franchise many rural post offices and to eliminate or tender rural route services in order to reduce its operating deficit, would reduce essential mail services from many rural Ontario communities causing severe hardship and inconvenience to rural Ontarians, particularly the elderly and disabled; and the provincial government should urge the Government of Canada to halt immediately these plans to cut service and to maintain and improve rural postal services across Ontario.
8. *Debated May 21, 1987.*
9. *Mr McCaffrey*—Resolution—That, in the opinion of this House, the federal government’s initiatives to negotiate a bilateral trading arrangement with the United States should be supported, as part of the government’s multilateral trade policy, while protecting our political sovereignty, social programs, agricultural marketing systems, the auto industry, and our unique cultural identity; And further that this House believes that the provincial government

must take a more active role in the development of Canada's trade strategy and the trade negotiations including clearly putting forward Ontario's position with respect to this issue of importance to all Canadians.

10. *Mr Sheppard*—Resolution—That, in the opinion of this House, recognizing that the maintenance and construction of a good road system is vital to the local, regional and provincial economy and recognizing the increasing gap between road subsidy and the expenditures required to maintain the existing level of service for roads, the Government of Ontario should increase the municipal subsidies available to municipalities for road purposes.
  11. *Debated May 21, 1987.*
  12. *Mr Shymko*—Resolution—That, in the opinion of this House, the Government of Ontario should grant permission for the erection of a statue honouring the world-famous Italian explorer Giovanni Caboto (John Cabot) at an appropriate site on the grounds of the Main Legislative Building of the Parliament of Ontario in recognition of his landing on the Atlantic shore of Canada in 1497, as well as honouring and recognizing the Italian Canadian community's immeasurable contribution to the development, growth and prosperity of Ontario and of Canada, and that appropriate funding be provided by the Government of Ontario jointly with other levels of government to a community based body that may wish to initiate and carry out this project under the auspices of and/or with the cooperation of the National Congress of Italian Canadians as well as under the patronage of the Governor-General of Canada, the Lieutenant-Governor of Ontario, the Prime Minister of Canada and the Premier of Ontario and other prominent citizens, and that the statue be officially unveiled on June 24th, 1997, ten years hence, as part of the celebration of the 500th Anniversary of this historic event.

## NOTICES

### GOVERNMENT MOTIONS

1. *Debated May 19 and 20, 1987.*
4. *Mr Nixon*—Resolution—That the Provisional Standing Orders be extended to remain in effect until 12.00 midnight on Thursday, December 31, 1987.
6. *Debated May 20, 21 and 25, 1987.*
9. *Mr Peterson*—Resolution—That this House agrees with the agreement in principle on the Constitution signed by the Prime Minister and the ten premiers at Meech Lake on April 30, 1987.

---

### PRIVATE MEMBERS' MOTIONS

3. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail businesses in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986.
4. *Mr Gordon*—Resolution—That in the opinion of this House, recognizing:
  - That Northerners must contend with a higher cost of living because of the sparse population, long distances between cities, and a harsh climate,
  - That operating a car is a practical necessity in the North,
  - That the North is being economically discriminated against when gasoline prices are allowed to be 16 cents per gallon higher in Northern Ontario than in the South,
  - That Northerners pay \$71 million more every year for gasoline because of these higher prices,
  - That higher gasoline prices serve as a deterrent to northern economic development,
  - That high gasoline prices deter potential vacationers,
  - That higher gasoline prices are socially regressive given that incomes in the North are lower than those in the South,

- That a cut in the price of gasoline would put money back into the pockets of ordinary Northerners, workers, pensioners, and those on fixed incomes who can better spend this money on the necessities of life,
- That higher gasoline prices cost Northerners money and jobs.

Therefore the Government of Ontario is called upon to act immediately to fulfil its promise of two years ago to equalize gasoline prices between Northern and Southern Ontario and put into practice the principle established in the Throne Speech that the best solutions are home-grown solutions.

5. *Mr Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by; (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called “Federated State of Northern Cyprus”; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
6. *Mr Wildman*—Resolution—That in the opinion of this House the Canada Post Corporation’s plans to close, amalgamate or franchise many rural post offices and to eliminate or tender rural route services in order to reduce its operating deficit, would reduce essential mail services from many rural Ontario communities causing severe hardship and inconvenience to rural Ontarians, particularly the elderly and disabled; and the provincial government should urge the Government of Canada to halt immediately these plans to cut service and to maintain and improve rural postal services across Ontario.
9. *Mr McCaffrey*—Resolution—That, in the opinion of this House, the federal government’s initiatives to negotiate a bilateral trading arrangement with the United States should be supported, as part of the government’s multilateral trade policy, while protecting our political sovereignty, social programs, agricultural marketing systems, the auto industry, and our unique cultural identity; And further that this House believes that the provincial government must take a more active role in the development of Canada’s trade strategy and the trade negotiations including clearly putting forward Ontario’s position with respect to this issue of importance to all Canadians.

10. *Mr Sheppard*—Resolution—That, in the opinion of this House, recognizing that the maintenance and construction of a good road system is vital to the local, regional and provincial economy and recognizing the increasing gap between road subsidy and the expenditures required to maintain the existing level of service for roads, the Government of Ontario should increase the municipal subsidies available to municipalities for road purposes.
  12. *Mr Shymko*—Resolution—That, in the opinion of this House, the Government of Ontario should grant permission for the erection of a statue honouring the world-famous Italian explorer Giovanni Caboto (John Cabot) at an appropriate site on the grounds of the Main Legislative Building of the Parliament of Ontario in recognition of his landing on the Atlantic shore of Canada in 1497, as well as honouring and recognizing the Italian Canadian community's immeasurable contribution to the development, growth and prosperity of Ontario and of Canada, and that appropriate funding be provided by the Government of Ontario jointly with other levels of government to a community based body that may wish to initiate and carry out this project under the auspices of and/or with the cooperation of the National Congress of Italian Canadians as well as under the patronage of the Governor-General of Canada, the Lieutenant-Governor of Ontario, the Prime Minister of Canada and the Premier of Ontario and other prominent citizens, and that the statue be officially unveiled on June 24th, 1997, ten years hence, as part of the celebration of the 500th Anniversary of this historic event.

### PRIVATE MEMBERS' MOTIONS

3. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail businesses in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986.
4. *Mr Gordon*—Resolution—That in the opinion of this House, recognizing:
  - That Northerners must contend with a higher cost of living because of the sparse population, long distances between cities, and a harsh climate,
  - That operating a car is a practical necessity in the North,
  - That the North is being economically discriminated against when gasoline prices are allowed to be 16 cents per gallon higher in Northern Ontario than in the South,
  - That Northerners pay \$71 million more every year for gasoline because of these higher prices,
  - That higher gasoline prices serve as a deterrent to northern economic development,
  - That high gasoline prices deter potential vacationers,
  - That higher gasoline prices are socially regressive given that incomes in the North are lower than those in the South,
  - That a cut in the price of gasoline would put money back into the pockets of ordinary Northerners, workers, pensioners, and those on fixed incomes who can better spend this money on the necessities of life,

— That higher gasoline prices cost Northerners money and jobs.

Therefore the Government of Ontario is called upon to act immediately to fulfil its promise of two years ago to equalize gasoline prices between Northern and Southern Ontario and put into practice the principle established in the Throne Speech that the best solutions are home-grown solutions.

5. *Mr Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by; (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called “Federated State of Northern Cyprus”; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
6. *Mr Wildman*—Resolution—That in the opinion of this House the Canada Post Corporation’s plans to close, amalgamate or franchise many rural post offices and to eliminate or tender rural route services in order to reduce its operating deficit, would reduce essential mail services from many rural Ontario communities causing severe hardship and inconvenience to rural Ontarians, particularly the elderly and disabled; and the provincial government should urge the Government of Canada to halt immediately these plans to cut service and to maintain and improve rural postal services across Ontario.
9. *Mr McCaffrey*—Resolution—That, in the opinion of this House, the federal government’s initiatives to negotiate a bilateral trading arrangement with the United States should be supported, as part of the government’s multilateral trade policy, while protecting our political sovereignty, social programs, agricultural marketing systems, the auto industry, and our unique cultural identity; And further that this House believes that the provincial government must take a more active role in the development of Canada’s trade strategy and the trade negotiations including clearly putting forward Ontario’s position with respect to this issue of importance to all Canadians.
10. *Mr Sheppard*—Resolution—That, in the opinion of this House, recognizing that the maintenance and construction of a good road system is vital to the local, regional and provincial economy and recognizing the increasing gap between road subsidy and the expenditures required to maintain the existing

level of service for roads, the Government of Ontario should increase the municipal subsidies available to municipalities for road purposes.

12. *Mr Shymko*—Resolution—That, in the opinion of this House, the Government of Ontario should grant permission for the erection of a statue honouring the world-famous Italian explorer Giovanni Caboto (John Cabot) at an appropriate site on the grounds of the Main Legislative Building of the Parliament of Ontario in recognition of his landing on the Atlantic shore of Canada in 1497, as well as honouring and recognizing the Italian Canadian community's immeasurable contribution to the development, growth and prosperity of Ontario and of Canada, and that appropriate funding be provided by the Government of Ontario jointly with other levels of government to a community based body that may wish to initiate and carry out this project under the auspices of and/or with the cooperation of the National Congress of Italian Canadians as well as under the patronage of the Governor-General of Canada, the Lieutenant-Governor of Ontario, the Prime Minister of Canada and the Premier of Ontario and other prominent citizens, and that the statue be officially unveiled on June 24th, 1997, ten years hence, as part of the celebration of the 500th Anniversary of this historic event.

### GOVERNMENT MOTIONS

1. *Debated May 19, 20 and 27, 1987.*
4. *Mr Nixon*—Resolution—That the Provisional Standing Orders be extended to remain in effect until 12.00 midnight on Thursday, December 31, 1987.
6. *Debated May 20, 21, 25 and 27, 1987.*
9. *Debated May 26, 1987.*

### PRIVATE MEMBERS' MOTIONS

3. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail businesses in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986.
4. *Mr Gordon*—Resolution—That in the opinion of this House, recognizing:
  - That Northerners must contend with a higher cost of living because of the sparse population, long distances between cities, and a harsh climate,
  - That operating a car is a practical necessity in the North,
  - That the North is being economically discriminated against when gasoline prices are allowed to be 16 cents per gallon higher in Northern Ontario than in the South,
  - That Northerners pay \$71 million more every year for gasoline because of these higher prices,
  - That higher gasoline prices serve as a deterrent to northern economic development,
  - That high gasoline prices deter potential vacationers,
  - That higher gasoline prices are socially regressive given that incomes in the North are lower than those in the South,
  - That a cut in the price of gasoline would put money back into the pockets of ordinary Northerners, workers, pensioners, and those on fixed incomes who can better spend this money on the necessities of life,

— That higher gasoline prices cost Northerners money and jobs.

Therefore the Government of Ontario is called upon to act immediately to fulfil its promise of two years ago to equalize gasoline prices between Northern and Southern Ontario and put into practice the principle established in the Throne Speech that the best solutions are home-grown solutions.

5. *Mr Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by; (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called “Federated State of Northern Cyprus”; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
6. *Mr Wildman*—Resolution—That in the opinion of this House the Canada Post Corporation’s plans to close, amalgamate or franchise many rural post offices and to eliminate or tender rural route services in order to reduce its operating deficit, would reduce essential mail services from many rural Ontario communities causing severe hardship and inconvenience to rural Ontarians, particularly the elderly and disabled; and the provincial government should urge the Government of Canada to halt immediately these plans to cut service and to maintain and improve rural postal services across Ontario.
9. *Mr McCaffrey*—Resolution—That, in the opinion of this House, the federal government’s initiatives to negotiate a bilateral trading arrangement with the United States should be supported, as part of the government’s multilateral trade policy, while protecting our political sovereignty, social programs, agricultural marketing systems, the auto industry, and our unique cultural identity; And further that this House believes that the provincial government must take a more active role in the development of Canada’s trade strategy and the trade negotiations including clearly putting forward Ontario’s position with respect to this issue of importance to all Canadians.
10. *Mr Sheppard*—Resolution—That, in the opinion of this House, recognizing that the maintenance and construction of a good road system is vital to the local, regional and provincial economy and recognizing the increasing gap between road subsidy and the expenditures required to maintain the existing

level of service for roads, the Government of Ontario should increase the municipal subsidies available to municipalities for road purposes.

12. *Mr Shymko*—Resolution—That, in the opinion of this House, the Government of Ontario should grant permission for the erection of a statue honouring the world-famous Italian explorer Giovanni Caboto (John Cabot) at an appropriate site on the grounds of the Main Legislative Building of the Parliament of Ontario in recognition of his landing on the Atlantic shore of Canada in 1497, as well as honouring and recognizing the Italian Canadian community's immeasurable contribution to the development, growth and prosperity of Ontario and of Canada, and that appropriate funding be provided by the Government of Ontario jointly with other levels of government to a community based body that may wish to initiate and carry out this project under the auspices of and/or with the cooperation of the National Congress of Italian Canadians as well as under the patronage of the Governor-General of Canada, the Lieutenant-Governor of Ontario, the Prime Minister of Canada and the Premier of Ontario and other prominent citizens, and that the statue be officially unveiled on June 24th, 1997, ten years hence, as part of the celebration of the 500th Anniversary of this historic event.
13. *Mr Wildman*—Resolution—That, in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.

### PRIVATE MEMBERS' MOTIONS

3. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail businesses in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986.
4. *Mr Gordon*—Resolution—That in the opinion of this House, recognizing:
  - That Northerners must contend with a higher cost of living because of the sparse population, long distances between cities, and a harsh climate,
  - That operating a car is a practical necessity in the North,
  - That the North is being economically discriminated against when gasoline prices are allowed to be 16 cents per gallon higher in Northern Ontario than in the South,
  - That Northerners pay \$71 million more every year for gasoline because of these higher prices,
  - That higher gasoline prices serve as a deterrent to northern economic development,
  - That high gasoline prices deter potential vacationers,
  - That higher gasoline prices are socially regressive given that incomes in the North are lower than those in the South,
  - That a cut in the price of gasoline would put money back into the pockets of ordinary Northerners, workers, pensioners, and those on fixed incomes who can better spend this money on the necessities of life,
  - That higher gasoline prices cost Northerners money and jobs.

Therefore the Government of Ontario is called upon to act immediately to fulfil its promise of two years ago to equalize gasoline prices between Northern and Southern Ontario and put into practice the principle established in the Throne Speech that the best solutions are home-grown solutions.

5. *Mr Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by; (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called “Federated State of Northern Cyprus”; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
6. *Mr Wildman*—Resolution—That in the opinion of this House the Canada Post Corporation’s plans to close, amalgamate or franchise many rural post offices and to eliminate or tender rural route services in order to reduce its operating deficit, would reduce essential mail services from many rural Ontario communities causing severe hardship and inconvenience to rural Ontarians, particularly the elderly and disabled; and the provincial government should urge the Government of Canada to halt immediately these plans to cut service and to maintain and improve rural postal services across Ontario.
9. *Debated May 28, 1987.*
10. *Mr Sheppard*—Resolution—That, in the opinion of this House, recognizing that the maintenance and construction of a good road system is vital to the local, regional and provincial economy and recognizing the increasing gap between road subsidy and the expenditures required to maintain the existing level of service for roads, the Government of Ontario should increase the municipal subsidies available to municipalities for road purposes.
12. *Mr Shymko*—Resolution—That, in the opinion of this House, the Government of Ontario should grant permission for the erection of a statue honouring the world-famous Italian explorer Giovanni Caboto (John Cabot) at an appropriate site on the grounds of the Main Legislative Building of the Parliament of Ontario in recognition of his landing on the Atlantic shore of Canada in 1497, as well as honouring and recognizing the Italian Canadian community’s immeasurable contribution to the development, growth and prosperity of Ontario and of Canada, and that appropriate funding be pro-

vided by the Government of Ontario jointly with other levels of government to a community based body that may wish to initiate and carry out this project under the auspices of and/or with the cooperation of the National Congress of Italian Canadians as well as under the patronage of the Governor-General of Canada, the Lieutenant-Governor of Ontario, the Prime Minister of Canada and the Premier of Ontario and other prominent citizens, and that the statue be officially unveiled on June 24th, 1997, ten years hence, as part of the celebration of the 500th Anniversary of this historic event.

13. *Mr Wildman*—Resolution—That, in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
  14. *Mr Guindon*—Resolution—That, in the opinion of this House, the Ministry of Tourism and Recreation should move immediately to implement a computerized tourist reservation system for Eastern Ontario similar to the system currently in use in the province of Nova Scotia.
  15. *Mr Treleaven*—Motion under Standing Order No. 36 (a)—That this House discuss Sessional Paper No. 106, Tabled May 27, 1987, namely a Petition relating to live dancing entertainment in hotels and other licensed establishments.
  16. *Mr McNeil*—Resolution—That, in the opinion of this House, the Government should bring forward Legislation dealing with the purchase or leasing of farm property. Specifically this Legislation should make it mandatory that any person or persons purchasing or leasing property in a bona fide agricultural area be informed of the conditions associated with farming and not in a position to harass or close down a bona fide farming operation.

## NOTICES

### GOVERNMENT MOTIONS

4. *Mr Nixon*—Resolution—That the Provisional Standing Orders be extended to remain in effect until 12.00 midnight on Thursday, December 31, 1987.
  6. *Debated May 20, 21, 25 and 27, 1987.*
  9. *Debated May 26, 1987.*
- 

### PRIVATE MEMBERS' MOTIONS

3. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail businesses in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986.
4. *Mr Gordon*—Resolution—That in the opinion of this House, recognizing:
  - That Northerners must contend with a higher cost of living because of the sparse population, long distances between cities, and a harsh climate,
  - That operating a car is a practical necessity in the North,
  - That the North is being economically discriminated against when gasoline prices are allowed to be 16 cents per gallon higher in Northern Ontario than in the South,
  - That Northerners pay \$71 million more every year for gasoline because of these higher prices,
  - That higher gasoline prices serve as a deterrent to northern economic development,
  - That high gasoline prices deter potential vacationers,
  - That higher gasoline prices are socially regressive given that incomes in the North are lower than those in the South,
  - That a cut in the price of gasoline would put money back into the pockets of ordinary Northerners, workers, pensioners, and those on fixed incomes who can better spend this money on the necessities of life,
  - That higher gasoline prices cost Northerners money and jobs.

Therefore the Government of Ontario is called upon to act immediately to fulfil its promise of two years ago to equalize gasoline prices between Northern and Southern Ontario and put into practice the principle established in the Throne Speech that the best solutions are home-grown solutions.

5. *Mr Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by; (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called “Federated State of Northern Cyprus”; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
6. *Mr Wildman*—Resolution—That in the opinion of this House the Canada Post Corporation’s plans to close, amalgamate or franchise many rural post offices and to eliminate or tender rural route services in order to reduce its operating deficit, would reduce essential mail services from many rural Ontario communities causing severe hardship and inconvenience to rural Ontarians, particularly the elderly and disabled; and the provincial government should urge the Government of Canada to halt immediately these plans to cut service and to maintain and improve rural postal services across Ontario.
10. *Mr Sheppard*—Resolution—That, in the opinion of this House, recognizing that the maintenance and construction of a good road system is vital to the local, regional and provincial economy and recognizing the increasing gap between road subsidy and the expenditures required to maintain the existing level of service for roads, the Government of Ontario should increase the municipal subsidies available to municipalities for road purposes.
12. *Mr Shymko*—Resolution—That, in the opinion of this House, the Government of Ontario should grant permission for the erection of a statue honouring the world-famous Italian explorer Giovanni Caboto (John Cabot) at an appropriate site on the grounds of the Main Legislative Building of the Parliament of Ontario in recognition of his landing on the Atlantic shore of Canada in 1497, as well as honouring and recognizing the Italian Canadian community’s immeasurable contribution to the development, growth and prosperity of Ontario and of Canada, and that appropriate funding be provided by the Government of Ontario jointly with other levels of government to a community based body that may wish to initiate and carry out this

project under the auspices of and/or with the cooperation of the National Congress of Italian Canadians as well as under the patronage of the Governor-General of Canada, the Lieutenant-Governor of Ontario, the Prime Minister of Canada and the Premier of Ontario and other prominent citizens, and that the statue be officially unveiled on June 24th, 1997, ten years hence, as part of the celebration of the 500th Anniversary of this historic event.

13. *Mr Wildman*—Resolution—That, in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
  14. *Mr Guindon*—Resolution—That, in the opinion of this House, the Ministry of Tourism and Recreation should move immediately to implement a computerized tourist reservation system for Eastern Ontario similar to the system currently in use in the province of Nova Scotia.
  15. *Mr Treleaven*—Motion under Standing Order No. 36 (a)—That this House discuss Sessional Paper No. 106, Tabled May 27, 1987, namely a Petition relating to live dancing entertainment in hotels and other licensed establishments.
  16. *Mr McNeil*—Resolution—That, in the opinion of this House, the Government should bring forward Legislation dealing with the purchase or leasing of farm property. Specifically this Legislation should make it mandatory that any person or persons purchasing or leasing property in a bona fide agricultural area be informed of the conditions associated with farming and not in a position to harass or close down a bona fide farming operation.
  17. *Mr Gillies*—Resolution—That, in the opinion of this House, the government's MISA program, which only covers companies dumping industrial effluent directly into the province's waterways, should be extended to now include the additional 97.5% of water polluters in this province that are dumping into the province's municipal sewer systems.
